Amazon Echo (Alexa) and Google Home (Google Assistant) user guide

VERSION 4.0
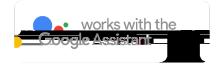

TO SET UP A SMART HOME DEVICE TO CONTROL NIGHTINGALE

Amazon Echo (Amazon Alexa)

Remember first to download and install the Alexa app on the same phone that you wish to control the Nightingale Sleep System with.

1. **Speaking to your Amazon Device, Say "Alexa, *Control Nightingale"***

2. (Alexa will respond, *"you need to link your amazon account to echo"*)

3. Go to Amazon Echo App on the phone (where you have installed Alexa) and the Nightingale link should appear on the Alexa app home page automatically

Google Home (Google Assistant)

Remember first to download and install the Google Assistant app on the same phone that you wish to control the Nightingale Sleep System with.

1. **Speaking to your Google Home, Say "Ok Google, Control Nightingale"**

2. (Google Home will respond, "It looks like your control nightingale account is not linked yet – you can link control nightingale to your google account from the google home app")

3. Go to Google Home App on the phone (where you have installed Google Home) and the Nightingale link should appear on the Google Home app home page automatically
